### **TEMPUR-PEDIC WILL DONATE 32NEW BEDS TO RONALD MCDONALD HOUSE OF TULSA**

Tulsa, OK –Thirty-two beds will be installed at the Ronald McDonald House Charities® of Tulsa on March 16 thanks to the specialty sleep manufacturer Tempur-Pedic, with headquarters in Lexington, KY.

In one day, local employees of McDonald's, Coke-Cola, Southwest Airlines, Tulsa Fire Department and other volunteers will remove the current beds and install the new ones for the 24 guest rooms in the House.

"We are so grateful for this wonderful donation. Many of our beds are over 15 years old," stated Jean Ann Hankins, Director of the House. "Having these new beds will provide our families with a comfortable place to rest after caring for their sick child all day at the hospital."

Tempur-Pedic, has committed to donating new beds to all participating Ronald McDonald Houses in the U.S. by the end of 2013. Tempur-Pedic believes that everyone deserves a great night's sleep. By delivering all new mattresses to the local House they are ensuring their mission and helping families in need get a restful night's sleep.

#### **About RMHC Tulsa**

The Ronald McDonald House of Tulsa, built in 1991, helps over 500 families a year that come to Tulsa when their child is critically ill or receiving treatment in one of the five (5) area hospitals. It truly is a home-away-from-home so that they can focus on getting their child healthy and not worry where they will stay, wash their clothes and have a nutritious meal. We believe children heal faster when families are together.

For more information, please call the House at 918-496-2727 or visit: [www.rmhtulsa.org](http://www.rmhtulsa.org)
